

INTERNATIONAL EXPERT, LIFE CHANGER & ORGANISER! WHO IS PETER WALSH?

Peter Walsh is a friend and regular on *The Oprah Winfrey Show*, renowned international organisation expert, best-selling author, radio host, experienced educator, skilled motivational speaker, part contractor, and part-therapist!

Born and raised in Melbourne, Peter moved to Los Angeles in 1994 to assist corporations in their quest to improve employee's job satisfaction and effectiveness. Peter considers himself to be part-contractor, part-therapist in his approach to helping individuals attain their goals in life.

As a regular on *The Oprah Winfrey Show*, Peter coaches viewers to 'de-clutter their homes, their heads and their lives so that they can live in a better space.' In addition to this he also hosts a weekly national radio program as part of *Oprah Radio*.

His company, Peter Walsh Design, has helped thousands of home owners and corporations organise their living and work spaces for optimal efficiency and liberated living.

Walsh lives (clutter-free) in Los Angeles and travels extensively both nationally and internationally, working with private clients, filming organisational programs, public speaking and consultation engagements.

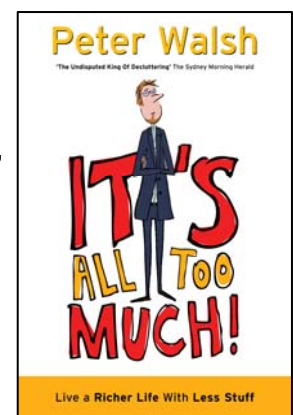

When not wading through clutter and large-scale disorganisation, Peter divides his time between his work in Los Angeles and visiting Australia as frequently as possible. Peter's passions include mid-century architecture and design, home renovation and transforming chaos into order.

This is the second year that Peter has been the ambassador for Dymo N.O.W.

Peter's book *It's All Too Much* has also been included in the 2009 Books Alive program, listed as one of the '50 Books You Can't Put Down'.

WHAT IS DYMO N.O.W.?

Dymo National Organisation Week (N.O.W.) is running across Australia and New Zealand from 7 to 13 September 2009.

Dymo N.O.W. is an initiative of Dymo Australia. The week encourages us to de-clutter and change our world from chaos to calm.

Established in California in 1958, Dymo quickly revolutionised the way businesses and individuals organised their worlds through innovative new products. Dymo builds practical ingenuity into every product they sell.

This approach has secured Dymo's position as the worldwide leader in labelling solutions. Dymo offers a complete range of labelling solutions, from manual embossers and electronic label makers for the home, portable and desktop label makers for the workplace, computer connectable label printers, even rugged industrial label makers for trades. There is a Dymo labelling solution to boost organisation and efficiency for everyone.

All Dymo label makers are built around the design principle of making professional presentation easily accessible to everyone. With large screens, clear keyboard layouts and intuitive software, even the most sophisticated labels are child's-play on a Dymo.

Dymo is a Newell Rubbermaid Office Products brand.
