# FORGET-ME-NOT LABELLING

THE EASY WAY TO CREATE PROFESSIONAL TAPE LABELS

**7** styles

**3** fonts

**2** tape widths

Time is indeed money. In our new, more competitive 21st century marketplace, improved productivity in every area is more important than ever. The new LabelPoint 150 helps you meet that challenge. The answer is simple but obvious and often overlooked. Better and clearer labels will maximize organisation and efficiency. Easy to read, durable, tape labels that stick to virtually any clean surface, from files to drawers. The result is fewer lost files, a better organised workplace, and more accurate stock inventory, to name just a few possibilities. A more professional and effective work environment always has a direct effect on the bottom line.

## 2 TAPE WIDTHS, COUNTLESS POSSIBILITIES

### NEW DESIGN FOR A NEW AGE

Finally, an economical general purpose labelmaker with a new ergonomic shape for user-friendly handling. Text appears bright, clear and is easy to read in any light on the semi-graphical screen. Editing couldn't be simpler. DYMO has spared no effort in creating a user-friendly and efficient interface, creating and editing labels couldn't be easier. High quality labels at the right price.

That's real value.

### EVERY ESSENTIAL FEATURE IN ONE MACHINE

The LabelPoint 150 features multiple memory functions including three memory fields, three different personal preference settings and keeps the last three labels printed for those often-repetitive tasks. You can design labels up to 99 characters long. It can even print multiple copies of labels, and you can view the text and layout before printing to prevent errors.

### HIGH-PERFORMANCE AT THE LOWEST COST

Use the right size tape for the job. It is a small thing, but one that quickly adds up to genuine savings. The LabelPoint 150 takes either 9 mm or 12 mm tape. It can print horizontally as well as vertically on one or two lines. Three different fonts are available. You can select from five boxes as well as an underlining function for additional emphasis. The machine is capable of seven different styles including plain, bold, italic, outline, shadow, mirror and vertical.

### POWER SUPPLY

The LabelPoint 150 uses six AAA alkaline batteries. Label everything from personal files to storage racks. The LabelPoint 150 is a robust, all-purpose labelling tool perfectly suited for general needs in the office and on the shop floor. Take it anywhere you need professional and clear labelling.
