

LABELS THAT STICK & STAY STUCK

RHINO Labels are as exceptional as the RHINO 6000. Easy to use and extra-strong, they're designed to last. Thanks to industrial-strength adhesives, they deliver the lasting durability and legibility you need. They come in six different materials for a multitude of applications. To meet the highest of standards, RHINO labels are designed to work exclusively with RHINO printers and perform on a huge range of different surfaces.

- Easy-to-peel, split-back labels
- Industrial-strength adhesives mean the labels stick and last in harsh conditions.
- Thermal transfer print technology produces labels that are durable, smudge-proof and resistant to solvents, UV, moisture, extremes of temperature and more.

NEW! RHINO self-laminating labels protect your printed area from exposure (to oil, solvents, water and abrasion) ideal for wire and cable marking, these versatile labels offer excellent conformity to round, irregular and flexible surfaces:

- Specially formulated to stick and last on wire and cable
- Resistant to abrasion, chemicals, solvents and water
- Die-cut labels allow "easy peel" from liner

S0718390	19 mm non-adhesive tag	white
S0718400	6 mm non-adhesive tag	yellow
S0718410	9 mm non-adhesive tag	yellow
S0718420	12 mm non-adhesive tag	yellow
S0718430	19 mm non-adhesive tag	yellow

SELF-LAMINATING VINYL - Wire and cable, Protects vital information (L=5,5m)

Sanford Code	RHINO Product	Colour
S0773860	24 mm Self-laminating tape	white

RHINO 6000

PROFESSIONAL LABELLING TOOL

Perfect for:

- Datacom
- Electrical
- Facility Maintenance
- Professional A/V
- Security

Create labels on a PC and download them to the RHINO 6000 or create and print labels on site; either way the rugged RHINO 6000 simplifies labelling with its advanced functions that really save time as well as the RHINO range of labels that stick and last.

Features:

- PC Connectivity for fast label downloads and uploads for documentation purposes
- "Hot keys" for instant wire and cable wraps, flags, vertical and fixed-length labels, patch panels, distribution modules and more.
- Over 250 easy-to-find, pre-programmed industry terms and symbols.
- Memory to save over 1000 custom labels including industry terms, graphics, logos and symbols for on-demand printing on site.
- Large backlit graphic display to preview entire label files with increased visibility.
- One-touch power-assisted cutter and cassette ejection system for effortless labelling.
- Industrial-strength labels up to 24mm wide.

RHINO 6000

PROFESSIONAL LABELLING TOOL

Introducing the RHINO 6000 - the latest in the range of top-quality labelling tools from RHINO™ - now with PC Connectivity! Our research tells us that the most important thing for an installer from a labelling tool is that it should be "easy to use"; the RHINO 6000 has been designed with special features to make it just that: label cassettes can be loaded and unloaded with no hesitation; the generously sized LCD allows you to edit and preview multiple labels and the RHINO "hot-key" technology provides shortcuts to your most common applications. Of course, the RHINO 6000 also prints on the RHINO range of industrial-strength labels, which are built to withstand all kinds of harsh treatments including solvents, UV, moisture, harsh temperatures as well as being almost totally smudge-proof. Delivering the highest level of performance at high-end installations, the RHINO 6000 is built to remain your labelling tool of choice for a long, long time.

Intuitive Graphical Interface
Create, edit and preview multiple labels on our largest backlit LCD

One-Touch, Power-Assisted Cutter
Eliminate the fatigue of manual cutting and increase efficiency

Hot Keys
Eliminate guesswork and complicated menus; enjoy fast and easy formatting of commonly used label types.

Quick-Charge Li-Ion Rechargeable Battery
With on-screen battery life indicator

Symbols
Over 100 pre-programmed industry symbols

Label Memory
Create and customize over 1000 labels with logos and symbols and save them for instant recall.

FAST

PC CONNECTIVITY

Library
Over 150 pre-programmed industry terms and the ability to customize your own library of terms, graphics, logos and symbols.

Integrated Impact Bumper
Protects your tool against the daily knocks on site.

Powerful Serialisation
Built-in wizards for simple and advanced serialisation

PC CONNECTIVITY

- Free Windows® driver available at www.dymo.com for printing from any Windows® programme via USB interface.
- Upgrade printer firmware when new features become available
- Works best with RHINO CONNECT™ Software* (not included) to:
 - Upload / download label files for in-the-field and on-demand printing.
 - Insert customized graphics and logos, symbols and industry terms.
 - Import any data from any Windows® based programme.
 - Create labels using the integrated step-by-step wizard.
 - Print labels directly from the RHINO CONNECT™ Software.
